

Table: The significant differences between how often cystic fibrosis information sources are consulted by respondents' continent

<i>Source</i>	<i>Continent</i>	<i>n</i>	Frequency of consulting cystic fibrosis information source					<i>P</i>
			Always	Frequently	Sometimes	Seldom	Never	
			%	%	%	%	%	
<i>Medical/Scientific Journals</i>								
	North & South America	119	21.8	23.5	26.1	13.4	15.1	<0.001
	Europe	89	5.6	22.5	21.3	18.0	32.6	
<i>Medical/Scientific Search Engines</i>								
	North & South America	119	21.8	29.4	21.8	14.3	12.6	0.004
	Europe	89	7.9	25.8	27.0	18.0	21.3	

P value was obtained from Mann-Whitney *U* test, ($P < 0.05$ was considered significant).
